GRAPE

Sangiovese

Sangiovese is Italy's most widely planted red grape variety, particularly common in Central Italy and most notably, principally responsible for the fine red wines of Tuscany. It is the base of the blend for Chianti, Vino Nobile di Montepulciano and most Supertuscans. It produces high quality wines w... [Read More](#)

TASTING NOTES

Colle del Sole Sangiovese Rubicone 2023. This is a lighter style red, that is very easy drinking for a Sangiovese. Expect aromas of dried herbs, followed by bright cherries and underlying hints of violets. On the palate, expect to pick up a tart cranberry note, with medium tannins and vibrant acidity. Very balanced and personable.
